TRANSDISCIPLINARY
INTERNATIONAL CONFERENCE

on

COHERENCE OF GLOBAL
SUSTAINABILITY - A WAY FORWARD

ABOUT THE INSTITUTION

“Amity Law School, Noida” is one of the leading institutions in the field of law. It was established as a philanthropic initiative by our Hon’ble Founder President - Dr. Ashok K. Chauhan. Amity Law School, Noida has been conferred the South Asia Legal Excellence Award, Best emerging Law School award by SILF and MILAT, along with the “Promising Law School award by Legal Desire. It is the dream of our Founder President Sir – Dr. Ashok K. Chauhan, to make Amity Law School, Noida a world-class educational institute in India and beyond.

It has set the bench mark in legal education by providing ample opportunities for education, research and capacity building. Amity Law School, Noida aims to impart high-quality professional education in a vibrant academic ambience with distinguished faculty and resource persons from the industry. Amity Law School, Noida has proved to be an epitome of legal education by striving for excellence in all its endeavors.

ABOUT THE CONFERENCE

Transdisciplinary studies are a reflection of the changing patterns of the changing patterns of knowledge production. Ubiquity of transdisciplinary approach is indicative of an important intellectual shift and it represents cognitivity. To understand and formulate better laws at present and in future, a holistic approach in acquainting with other disciplines becomes indispensable. Transdisciplinary concepts have become necessary because differentiation and specialization of knowledge in discrete categories have become a law of being in the 21st century. It is the time we should expand our horizon beyond reductive views of the law and identify and resonate its significance in other disciplines.

Legal studies must acknowledge transformation of both- ideas and genres, within their own discipline and beyond its borders. Transdisciplinary approach promotes the capacity to integrate knowledge and modes of thinking drawn from two or more disciplines to produce a cognitive advancement. This International Transdisciplinary Conference is the 5th edition to the previous successful International Transdisciplinary Conferences organized in 2017, 2018, 2019 and 2021.

THEME OF THE CONFERENCE

With technological advancement and synthetic development of mankind, exploitation of natural and social resources has accelerated exponentially. Such accelerations have conducted varied practices such as hyper-consuming, commodification etc, which are falsifying the previously consistent demand and supply matrix. Initially, the wants of the people were coherent with their contributing need, but with the advent of such aforementioned practices, the customary preservation of 'inter-generational equity' has been impugned. A prudent question predicating the aforementioned premise shall ask for a legitimate solution to such endangerment of 'equity'. Thus, the means to enhance and mandate such preservation gravitates around the principle of 'Sustainability'.

Sustainability, in ordinary parlance, can be construed as 'maintaining the needs of the present without compromising the needs of the future'. Such maintenance is the functional requirement of the society without which the social and financial systems are deemed to collapse. United Nations have realized the pertinent need to address such issues of sustainability by formulating the 17 Sustainable Development Goals (SDGs) in 2015 to set a target for the global community to be achieved by 2030.

THEME OF THE CONFERENCE

Therefore, realizing the fiction of tomorrow, Amity Law School has leaped ahead in its flagship event 'Transdisciplinary International Conference of 2022' with the theme 'Coherence of Global Sustainability – A Way Forward'. The theme is vividly based on an interplay of disciplinary conduct acting in harmony to maximize the preservation of resources and ensuring sustainability in various facets of humanity. Given the current relevance of "sustainability" in almost all the spheres of human existence, it becomes pertinent for academia too to rethink and assess our present situation and plan for the future. The world is also witnessing widespread disquiet. Various national and international organizations have taken lead in sensitizing and formulating policies for assimilating economic, environment, and other related areas to attain sustainability

The theme of this conference is very apposite as it aims to address and provide solutions for significant intertwined global sustainability issues in other streams too such as polity, economics, gender studies, sociology, law, environment, management, etc. by providing a platform for unprecedented discussions through panel discussion followed by paper presentations by eminent scholars, academicians, sociologists, culturists, lawyers, administrators and other stakeholders from various disciplines.

OBJECTIVES OF THE CONFERENCE

To understand the philosophy and deep meaning of the theme of the conference.

To broaden our horizon beyond reductive views of the law and identify and resonate its significance in other disciplines

To embellish the understanding of transdisciplinary contribution towards the knowledge building.

To appraise the affiliation of law, cultural heritage and ethics in the current human dynamics.

The above objectives are sought to be achieved by having panel deliberations of eminent scholars from academia and discussions followed by paper presentations.

SUB-THEMES OF THE CONFERENCE

1. Sustainable poverty alleviation
2. Challenges to zero hunger sustainability
3. Rethinking the environment for global sustainability
4. Fostering sustainability for health and well-being
5. Quality education for sustainability
6. Sanitation sustainability for community water
